

Our Lady's Catholic Primary : Computing Teaching and Learning Policy

Coverage and Expectations

We follow the Entrust Computing Scheme of Work and Project Evolve to cover our internet safety. Computing is to be taught 2 hours per week in both KS1 and KS2.

Each year has a long-term plan showing the units and coverage is provided to deliver the national curriculum. This can be found on the J2launch pad, labelled new computing scheme of work.

Planning Expectations and Links

Long term, medium term and short-term planning documents are all saved and shared centrally via Entrust . Planning will need to be reviewed and adjusted to ensure it meets the needs of your class.

Each unit has a lesson by lesson breakdown to support teachers with delivery of lessons. Teacher tasks are in black and pupil tasks are in red.

Assessment and Feedback

Each unit begins with a unit marker which can be found in the planning folder for each year group. All are to be completed by each class in their big books, identifying whether objectives have been met. At the end of each unit these are revisited and completed.

Feedback will be mostly given verbally during the live lessons and throughout the journey of the units.

Lesson Structure

Every computing lesson begins with the children independently logging in, either through a QR code or entering their information.

Each lesson will begin with a discussion about the previous lesson's skills. Modelling is key to support children's understanding.

Environment

There is no expectation for a computing display in classrooms, although you may like to add elements of computing lessons to other displays as appropriate.

Equipment

At school we have access to a class set of iPads and laptops.

KS1 – use iPads to complete units

KS2 – use laptops to complete units

Timetables are provided and a booking system in place to ensure fair usage.

Devices must be booked out and returned neatly to their storage cupboard after the lesson.

Presentation of work

Each class has one big book where work from each unit and all project evolve units should be evidenced. Selected pieces of work from a range of children is need.
